

SAP Business ByDesign

SAP BUSINESS BYDESIGN IS THE *right solution* IF YOU'RE LOOKING TO:

Streamline end-to-end processes and boost efficiency across your organisation

Gain business insight with **integrated analytics and reporting**

Access business **functionality and analytics anytime, anywhere** and on any mobile device

HOW SAP BUSINESS BYDESIGN *enables growth*:

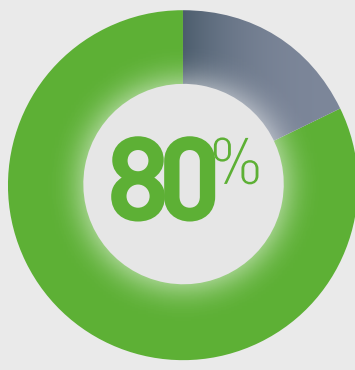

Gain business insight with **integrated analytics and reporting** - better visibility means better decisions

1100 organisations just like you are using SAP Business ByDesign, **supporting over 75,000 users**

A solution that allows you to start with what you need now and **add more as you need it, when you need it** and where you need it, is a wise choice

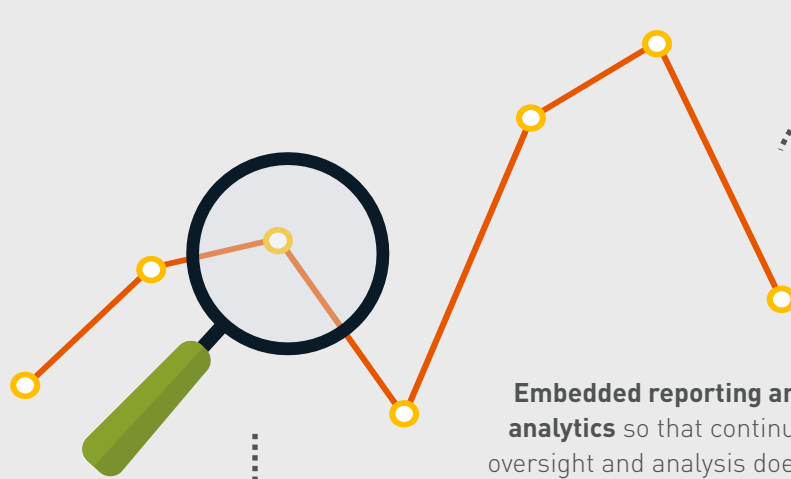

80% of SAP customers are fast-growing, small to medium sized businesses

The only solution specifically designed to help **companies grow and maximise profits**

100%
cloud based solution

Modules include: Financial Management & Accounting, CRM, HR & Payroll, Project Management, Purchasing, Supply Chain, Business Analytics and Planning & Reporting.

Embedded reporting and analytics so that continual oversight and analysis doesn't become an afterthought

The real proof that **SAP Business ByDesign delivers** on these promises comes with a demonstration

SAP Business ByDesign is modular, so you can **switch on additional modules as and when you need** - one application, one interface and all the core functions built in.

Three-dimensional design philosophy - **simplicity, flexibility and extensibility**

HOW CAN WE HELP?

Why do we know these facts?

We know these facts from our experience of helping organisations to migrate IT services to the cloud. We have assisted Gillespies, Langmead Farms, Pinewood Studios and Virgin Management to evaluate and migrate to cloud based services and have seen the impact it has had on their business.

Our team can help you evaluate your options and advise you on which services would be best provided from the cloud. We can then help you to quickly and easily migrate to the cloud leverage our vast array of cloud and managed IT service offerings.
